No. 65

IRGCVD news

Members will be aware that the production of Daltoniana was interrupted following the tragic death of Guy Verriest on October 20, 1988. The present number marks the resumption of quarterly issues. Members' comments on style, format and content would be welcome.

With the membership of the group now approaching 300 it is high time that a members address list was made available. Most of this issue is devoted to that. Members are requested to report any errors or changes of address to the Editor. An important feature of Daltoniana introduced by Guy Verriest was a regular Literature Survey. This service will be continued. Would authors and reviewers please send abstracts, reviews or summaries to the Editor.

10th Symposium of the IRGCVD 25-28 June, Cagliari

There were 117 participants registered for the 10th IRGCVD Symposium. The meeting was divided into five timetabled sessions: Field Size, Examination Methods, Genetics, Basic Research and Acquired Defects together with a Poster Session. The Group is indebted to Professor Antonina Serra who, with her local committee, Drs d'Atri, Dessi, Fossarello, de Martini, Mulas and Zucca, assisted by a host of collaborators, planned and organized the Symposium. Following the death of our General Secretary, Guy Verriest, Professor Serra took over his work relating to the scientific programme in addition to the normal duties of local organizer. She was assisted in this by Professors Jaeger and Marré and the Group owes them all a special debt of gratitude.

Moving obituaries for Guy Verriest were given during the opening session by Professors Jaeger and Roth and followed by a presentation to Mme Jeanne Verriest of a commemorative medallion.

At the biennial General Meeting, by unanimous vote, Professor André Roth was elected President and Professor Jack Moreland was elected General Secretary. Professor Manfred Richter was named as an honorary member of the IRGCVD. There was considerable discussion about the location of the 1991 International Symposium and after some 'cliff hanging' votes and recounts the die was cast finally in favour of Sydney, Australia. One important factor in that choice was, no doubt, that the International Colour Association (AIC) would be holding a Symposium in Sydney, June 26-28, 1991 to be followed by the 22nd session of the International Commission on Illumination (CIE), 1-12 July, in Melbourne. An invitation was received from the University of Alicante to hold the 1993 Symposium in Alicante, Spain.

The special topics selected for Sydney were (1) Genetics and Individual Differences in Colour Vision, (2) Standardization of Test Methods and (3) Spatial Discrimination with Chromatic Stimuli.

The Treasurer reported that the Group's finances were in a healthy condition: about 8700 pounds sterling in the combined U.K. and U.S.A. accounts (U.K. details below).

A number of decisions were taken by the Directorial Committee (old and new) to redistribute the administrative work more equitably than before. Dr Bruce Drum is our Proceedings Editor and Secretary for the Americas. He will share the editorial work of the Cagliari proceedings with Professors Moreland and Serra. An advisory committee (Mrs Birch, Dr Drum and Professors Marré, Moreland, Roth and Zrenner) was appointed to formulate editorial policy for future proceedings. Daltoniana will provide a forum for debate on this topic.

Dr Steven Dain will be the local organizer of the 1991 Symposium and is, therefore, a de facto member of the directorial Committee. Professor Moreland's election as General Secretary left a vacancy in the Committee and Dr John Mollon, a close contender in a previous election, agreed to be co-opted.

Treasurer's Report

The following is a statement of the current balance held by the International Research Group in the United Kingdom on June 1 1989.

	June 1987		June 1989
	£4,099.71	Deposit Account	£4,512.58
	<u>£ 621.80</u>	Current Account	<u>£1,550.29</u>
Total	<u>£4,721.51</u>		<u>£6,062.87</u>

Since 1985 Subscriptions from members in Europe, Scandinavia, Japan, Israel and Australia have continued to be received in London and members in the U.S.A., Canada and South America have paid their subscriptions to the I.R.G. account in the U.S.A. The current U.K. balance does not include subscriptions for 1989 which have recently been requested and which can be paid at the Symposium.

The annual Subscription is unchanged at 10 pounds sterling. Currently the Group has a total of 279 members.

The improvement in the overall financial position of the Group since 1987 is due to the slight increase in membership and a reduction in expenses caused by the interruption in the distribution of Daltoniana following Dr. Verriest's death.

Regional IRGCVD Symposium, 26-28 March 1990, Tokyo

All members should have received registration documents during August for the regional IRGCVD Symposium being held in Tokyo, 26-28 March, 1990. This is a satellite meeting of the 26th International Congress of Ophthalmology. The dateline for the submission of abstracts and for discounted registration fees is 31st October. Information is obtainable from the
